# Surrey Care Record

This information comes from Surrey Heartlands Health and Care Partnership.

We are health services and social care services working together.

Social care is the support you get to live independently.

## Your health and care record

Your Surrey Care Record has information about your health and care.

It is a record of your health and social care information in one place.

It can be shared with all the health and care professionals that help you.

## A better service

Being able to share your information with health and care professionals means that:

- You won't have to explain things so many times

- You will get a quicker service because professionals will have all the information they need

- All our health and care professionals will be able to give you a service that is right for you

## Keeping your information safe

We will keep your health and care record safe and secure.

Only people involved in your care will be able to see your health and care record.

You can get more information about how we will keep your information on this webpage:

[www.surreyheartlands.uk/surrey-care-record-privacy-notice](http://www.surreyheartlands.uk/surrey-care-record-privacy-notice)

## Health and care services outside Surrey

We are working with health and care services outside Surrey.

We will, in the future, be able to share records with services close by.

This will be better for you if you want to get a health or care service just outside Surrey.

You can get more information on this website:

[www.thamesvalleysurreycarerecords.net](http://www.thamesvalleysurreycarerecords.net)

## If you don't want us to share your records

You have the right to say you don't want us to share your health and care records.

If you don't want us to do this you should contact your local doctor (GP), or the service providing your care.

# Further information

The Surrey Care Record is managed by Surrey Heartlands Clinical Commissioning Group.

You can get more information from our website:
